Upgrade your school with NEP App.

One-stop solution for all your school needs.

We offer NEP 2020 based features to boost learning and teaching outcomes.

5 Key Features based on National Education Policy (NEP 2020)

1 **Experiential Learning** - Real-life videos, science experiments, virtual labs and games are integrated to deliver experiential learning to students.

2 **Boost Concept Clarity - Eliminate Rote Learning** - Concepts are explained in the form of 2D-3D animations, stories and cartoons to boost conceptual clarity and eliminate rote learning among students.

3 **Multilingual Education** - The complete content in the NEP app is available in both Hindi and English for easy understanding of concepts and to improve English speaking among students.

4 **Student-Centric Learning Approach** - Through the teaching app, teachers can track the complete usage, progress and performance of students. Based on the insights, teachers can improve their teaching technique and student's performance.

5 **Critical Thinking** - High Order Thinking Skills (HOTS) questions and a repository of 1 Lakh+ questions are integrated into the app to develop the student's critical thinking.

Sophisticated 'Content Usage' and 'Weak Area Identification' tools in our teaching platform allow teachers and administrators to view and analyze student performance basis NEP guidelines.
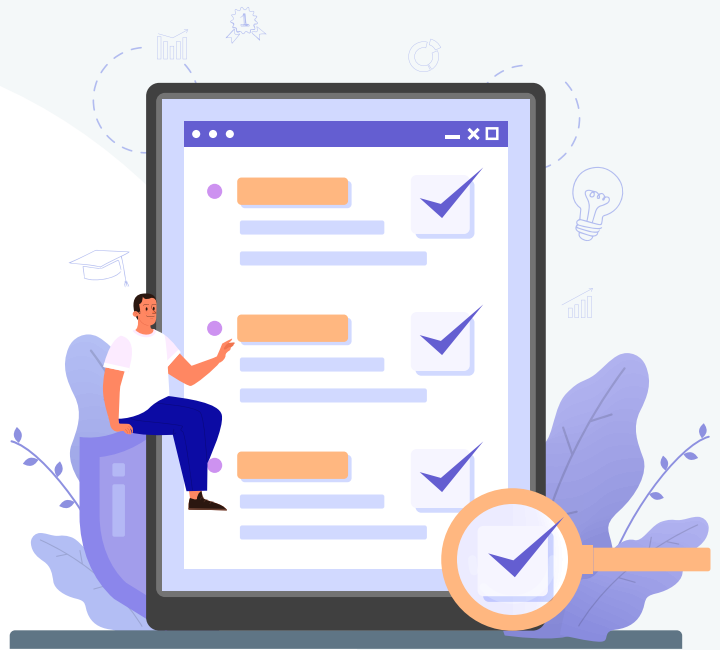

Parents will be spellbound by the level of monitoring and individualized attention provided by the NEP app.

Top reasons why Schools and Parents love PRIDE Assessments

● PRIDE gives numeric evidence of a student's Mental Performance Index (MPI).

● It is the only assessment to investigate and identify casual factors for a student's mental performance. This helps gauging a student's strengths and weaknesses better.

● Schools can include PRIDE profiles as part of their marksheets and report cards, thereby providing parents with a Wholesome analysis of the student's performance. This aligns schools to NEP 2020 guidelines as well.

● PRIDE management reports helps schools to understand areas of focus required for students and teachers. This helps to build effective training journeys for the school.

● Parents have absolute clarity on the mental performance levels of their children which helps to grow their trust on schools as well.

● PRIDE helps to align schools and parents on the student's mental capabilities and create joint efforts to boost the child's Wholesome Development profile.
